¹ From Appendix E, 40 CFR 58 - for NAMS sites only.

Category (a) = peak concentration

Category (b) = high population/high concentration - or neighborhood scales for PM10

² Scale - From Appendix D, 40 CFR 58: Micro-, middle-, or neighborhood scales for PM10.

³ Frequency has been adjusted as required by Figure 1 in 40 CFR 58.13 following one year of monitoring at daily or every other day monitoring.

⁴ Collocated sampler at these sites (precision data) - operated every sixth day.
